

STATE LAWS MUST BE STRENGTHENED

SEVERAL CHANGES URGED UPON
THE COMING LEGISLATURE.

THE RAILROAD COMMISSION

Shows That Their Work Is Hindered
By the Recent Decision Of the
Supreme Court In the Soo Case.

Madison, Wis., Dec. 30.—The strengthening of the stock and bond law, under which the railroad commission passes upon the issues of the public service corporations in Wisconsin, is recommended in the annual report of that body filed with the railroad commission today.

The commission's construction of the law was in some respects reversed by the supreme court in a case involving the "Soo" railroad.

"The law should be amended," says the commission, "to give the commission the power of investigation which it assumed to possess prior to the decision of the court."

Further strengthening of the law is suggested by the commission, under which the legislature should prescribe the purpose for which securities could be issued determine the character and limit the amount which would be reasonably required.

"And leave to the commission to ascertain whether the proposed purposes are within the terms of the statute and whether the character and amount proposed to be issued are reasonably required for such purposes."

The commission also asks larger appropriations for the joint protection with the railroads for public safety. The report shows the total mileage of railroads in the state is 7,452 miles, an increase of 33 per cent over the preceding year.

The total earnings of railroads in the state was \$65,170,471, an increase of 11.4 per cent, while the net revenues were \$22,022,881, an increase of 6.5 per cent.

The railroad issued 2,839 annual passes during the year and 1,116 trip passes. The total number of complaints against the railroads were 432; against public utilities, 114.

LOCAL TRAINMEN ARE AFFECTED BY ORDER

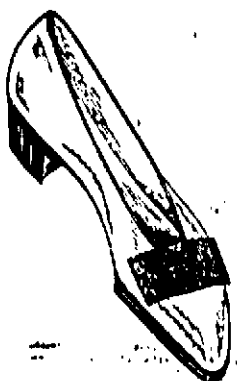

Railroads Give Conductors, Brakemen
and Flagmen Increase Of Ten
Percent.

[BY UNITED PRESS.]

Janesville conductors, brakemen and flagmen as well as the engineers are much interested in the settlement of the wage difficulties which have been under discussion for several months past. The engineers received their promised increase some days ago and yesterday the other trainmen obtained their demands. The concession yesterday means that they will receive as an organization \$5,000,000 a year more. Since 1903 members of trainmen and conductor's orders have been conceded a total of \$35,000,000 more wages in the United States and Canada.

The locomotive engineers on the western roads were given an advance a week ago of nearly \$4,000,000. Adding this increase to the increased wages paid firemen, machinists, boiler-makers, blacksmiths, carpenters and other shopmen, trackmen, telegraphers, freight handlers and office employees the total amount given during the past seven years by the railroads is estimated to be \$150,000,000. All rules asked for were waived by the conductors and trainmen in consideration of the offer of money. The new wage schedule went into effect today and the advance will be paid the first payday.

City of Mexico, Dec. 30.—It has been learned from excellent authority that President Diaz desires to make peace with the rebels in Chihuahua and has sent an officer to see if it is possible to affect peace by changing the state government of Chihuahua. It is said that Col. Cuellar is slated for the governorship and that Gov. Terrazas and Senor Creel will be removed from all participation in affairs of state.

Amnesty will be declared for rebels who have taken up arms against the government, the laws will be modified to give the common people more liberty and taxes will be reduced.

USED RAILROAD MONEY.

In an interview with Rowell Miller, chairman of the board of directors of the Chicago, Milwaukee & St. Paul road, James B. Morrow in the Boston Globe quotes Mr. Miller:

"The people and the railroads in Wisconsin were on the best of terms. When the railroad did anything wrong the evil was small and easily corrected. And it was corrected. Then La Follette appeared and began to stir up the people. His motives were entirely political. After he was nominated the first time for governor, men charged with the management of his campaign came to us for money. They went to other roads as well. We told them we would contribute if assured that we should be treated decently. We asked for no less. The men went away. When they returned they said we had nothing to fear, the St. Paul road would not be harassed for political purposes. We gave them \$5,000. Let me add that the contribution was never duplicated. The public was stirred into animosity against us. The pleasant relations we had with the people were broken. Some men seemed to think, finally, that we ought to carry their freight for nothing. The same sort of conduct on the part of politicians became common in other sections of the western country. Baiting the railroads appeared to be the easiest and surest way of getting into a public office. But when a panic in business comes again, a wide panic that affects the entire country, the people will reflect in their leisure and measure their politicians and arrive at just conclusions. And their opinions, then, I believe, will be permanent. However, there is no sign of a panic now, with a crop of 3,000,000, 000 bushels of corn coming in and big crops of everything else."

GRANTED ADVANCES.

Conductors, brakemen, flagmen and engineers on the western railroads have been granted an advance in wages by the corporations as a result of the recent negotiations which have been hanging fire for the past year.

Chief Stone, of the Brotherhood of Locomotive Engineers, is quoted in the dispatches as saying that he is by no means satisfied with the 10 per cent advance obtained for the men in the settlement agreed to by his organization and the general managers of the western railroads, but consented to its adoption in order to save the country from industrial disaster.

The Brotherhood leaders may or may not have expected to obtain more at this time; the point to be observed is that no wage agreement ever wins the unqualified approval of the labor leaders, nor is it easy to imagine one which would. It has become part of the settled policy of labor to serve notice, in accepting any agreement, that such agreement represents a strictly temporary compromise of labor's just claims. Capital and the public are expected to bear in mind that a demand for still higher rates of pay will be made just as soon as, in the judgment of the leaders, the circumstances are again propitious.

It is hardly possible to think of any wage agreement involving railroad labor just now without at once reverting to the rate cases pending before the Interstate Commerce Commission. Each side will hail the Chicago settlement as one more argument in its favor, although as a practical matter it bids fair to weigh the more heavily on the side of the carriers. The companies have been obliged to find several millions more annually for their men, and they must either charge more for their services or take the money out of their property through restricted upkeep.

On the other hand, the shippers can argue plausibly that the railroad managers were the more willing to make concessions because of the possible influence on the rate cases. They will be quick to renew their plea that, if rate increases are to be based upon wage increases, then the labor leaders and the railroad managers may be depended upon to keep the vicious circle going. Chief Stone's dissatisfaction with what he has just been able to obtain unquestionably points in that direction.

The chain is as strong as its weakest link. The weakest link in this chain is the imminence of contracting business and the moral certainty that when a sufficient number of hands have been laid off until labor will start to cut wages.

Federal officers seized nine tons of liquid eggs in New Jersey recently which were consigned to Chicago. Lucky it was not some other kind of liquid that comes from Milwaukee and there would have been an awful howl; now it is merely a little cackling.

Those men who sold their votes down in Ohio will not be interested in politics for the next five years and some of them will doubtless not consider it worth while to vote even after that for fear suspicion might be attached to their purposes.

Chicago and its suburbs are having another taste of street railway trouble that bids fair this time to become more complicated than ever. The federal court has taken a hand in the matter and it is possible that the street car lines will lose their fight.

Maybe that coating of slush is to give the winter a real foundation, but the average pedestrian is not suited with such a foundation and would prefer more snow or none at all.

Speculators are said to have been barred from securing the choicest seats on the water wagon that starts at midnight Saturday so the general public will not have to pay extra for their seats this year.

So President Taft is to have his plan of fortifications of the Panama Canal Zone passed just as he wants it. It is some satisfaction to know that congress and Taft agree on some points at least.

W. F. SHEEHAN
Who is Seeking Senator Depeew's Seat in U. S. Senate.

New York, Dec. 30.—William F. Sheehan again declared his candidacy for United States senator in an open letter to Buffalo Democrats, who urged him to do so. Mr. Sheehan's letter says in conclusion:

"If I am called to service in the national senate my motto will be upward and onward, but steady, always steady."

HOT CONTEST FOR DEPEW'S PLACE

Several Candidates in Race in New York State Contest.

DEMOCRATS TO MAKE CHOICE

William F. Sheehan and Edward M. Shepard Are Prominently Mentioned for the Position—Both Well Backed.

New York, Dec. 30.—Public statements and circular letters favoring the principal Democratic candidates for the seat in the United States senate about to be vacated by Chauncey M. Depew became more numerous with the approach of the first of the year and the time for the convening of the next state legislature.

From William F. Sheehan something is expected in the nature of a reply to the recent declaration in his favor by prominent Democrats of Buffalo, his former home. William Church Osborn, chairman of the committee which is advocating the candidacy of Edward M. Shepard, heads a long list of New York Democrats who have signed an appeal to voters to write their respective representatives in the legislature in Mr. Shepard's favor.

This contest for the senatorship is of unusual importance, because the incoming legislature will be the first that has had a Democratic majority and power to send a Democrat to the United States senate since the late David B. Hill sat in that body.

Mr. Shepard and Mr. Sheehan are the leading candidates, but in the event of a deadlock between them friends stand ready to press the claims of Supreme Court Justice James W. Gerard, D. Cady Herrick, J. Sergeant Cram or Daniel F. Cohalan, Cram and Cohalan are closely identified with Tammany Hall.

His friends say Sheehan has enough upstate legislators pledged to assure his success at the party caucus.

Next week the scene of the preliminary skirmishes will be transferred to Albany, when the backers of the candidates will go to the capital to attend the inauguration of Governor Dix and the convening of the legislature.

Heart to Heart Talks.
By EDWIN A. NYE.

WELCH'S WAY.

This is a plain tale of Welch. It is not taken out of a book, but out of life. Welch is a man I know.

When Welch was a small boy he applied to be a telegraph operator, and he went about trying to make his dream come true.

In pursuance of his ambition he arranged an old key sounder into the attic of his Iowa village home, and while the other boys of the town slept young Welch pounded away at the key. He mastered the code and became an adept at sending messages.

When he got a peek to Chicago and applied for a job the head man laughed at him, much as Saul must have laughed at David when the stripling applied for the job of whipping Goliath. He was only a kid.

But the eager boy kept on and watched for his chance. One night he was left in charge of the station while the night operator went to a dance. A wreck occurred. The operators at headquarters wondered at the sharp, quick touch and the snappy style of the sender at the Pull end of the line.

The story leaked out, and Welch got a station. Here the multitudes stop. Having secured a job, they are satisfied, most of them, for life. Their chief ambition is to do just enough work to hold the job. But Welch was not satisfied to be the operator at a dinky station. Welch prepared to be promoted.

It is always the prepared people who get the promotions. He was sent to Chicago, to Boston and elsewhere for special work and made good wherever he went. He did more and better and quicker work than was expected of him.

What else can you do with a young fellow like that except to promote him? Welch was made manager of the Western Union office at Des Moines. It looked strange to see that youth at the manager's roll top desk with the gray haired men behind him at the instruments. And then—

A good man was needed at Chicago. There was no better man than Welch of Des Moines.

And I doubt not that Superintendent J. J. Welch of Chicago has his eyes on something still better. And he will get it.

CABINET MEMBERS QUIT

Ministerial Crisis in Spain Expected to Occur Soon.

Madrid, Dec. 30.—Discussing the approaching ministerial crisis Prime Minister Canalejas would not deny the authenticity of the rumors that certain members of the cabinet were about to retire because of their dissatisfaction with the action of the budget commission in suppressing appropriations asked for by their departments. It is said that the crisis will come to a head next Sunday or Monday.

The new minister of agriculture, industry, commerce and public works, will be Senor Chasset, a newspaper man; the new minister of the interior, Alonzo Castello, and the new minister of public instruction, Amos Salvador. Senor Canalejas declared that before the changes are made he will ask for a vote of confidence in his policy.

By WALT MASON.

For those whose hearts are sick with care, for those who consort with despair, for those who work, for those who weep, there is no REMEDY. The GREAT drops that equal sleep. The kind of sleep we used to know, when we were children, long ago, the kind of sleep that nature brings, wherein we hear seraphic wings, the kind of sleep that closed our eyes when soothed by mother's lullaby—ah, that's the balm for heart and brain, the cure for every mortal pain! One night of sleep is worth a ton of any drug beneath the sun. One night of sleep will do more good than all the doctors ever could. One night of sleep, when tired and blue, will fix you up as good as new. If you'd enjoy this noble balm, your soul must be serene and calm, and if that calmness you'd attain, your life should be without a stain. If, when you seek your downy bed, your conscience prods you in the head, recalling actions mean and base, your falsehoods in the market place, the evil things that you have wrought since last you occupied that cot, then sleep will vanish, shedding tears; the night will seem a hundred years.

IS IN THICK OF THE REVOLUTION NEAR CHIHUAHUA

H. M. Fria, Formerly with the Gazette Writes of Fighting on December 25.

Postal cards received this morning from H. M. Fria, mailed in Chihuahua on December 25th, depicting views of the Mexican revolution, were received here today. Mr. Fria is acting as war correspondent for the El Paso Herald, one of the owners of which is Mr. Willmarth, also a former Janesville resident. The postals depict scenes of the revolution, showing the fighting and the burning of the rural guards of the Mexican republic waiting for the insurgents, and of a row of dead insurgents brought into Chihuahua.

Mr. Fria is at Chihuahua for the second time, having been ordered out of the country some days ago and returning to El Paso. He says the fighting is very sharp near Chihuahua and predicts an attack upon that city by the insurgents within a day or two. His report is very similar to the letter received from Mrs. MacLean and published yesterday, which was written December 24th.

This morning's dispatches from the scene of the trouble are in confirmation of the two reports received by mail. An El Paso dispatch says: "Preparations to resist a siege of the Mexican city of Chihuahua from revolutionists who are mobilizing an army in the hills about the city are under way today, according to advices from there."

"The rebels are said to be growing constantly in strength and reports state that the foothills on all sides of the city swarm with insurgents."

"Long range guns have been mounted on the city's defenses and the batteries strengthened. Soldiers are drilling in cuttle and sheep from surrounding ranches to provide food."

"Great quantities of ammunition have been stored in the barrack magazines. Additional beds have been placed in the hospitals to provide for the wounded."

"For three days the insurgents have been gradually drawing a net about Chihuahua, forcing back the regulars, who are outnumbered."

WOMAN'S PAGE

The Evening Chit-Chat

By RUTH CAMERON.

A "MERE man" has taken sufficient interest in feminine complexion and the treatments suggested for them in these columns to send in the following receipt for a good complexion:

Take a rough towel and, starting at the shoulders, vigorously and thoroughly, with a circular movement rub the skin of the entire system, leaving the neck and face until the last. Rub until a feeling of warmth is induced and the entire body glows. If sufficient vigor is exercised a feeling of mild exhilaration relatively akin to the galvanic energy incarnate in the perfect athlete, should result. Bathe the face and neck without soap, then apply the friction to the neck. The cheeks will then feel flushed and tingling. A few careful strokes over the face will convert the tingling sensation into a glowing feeling of warmth. Use due discretion in the application of the friction, as a severe rubbing will scrape off the skin, while mild rubbing will be ineffective. When finished it would be well to go lightly over the entire body with a camellia hair brush, to eliminate any accumulations of lint from the towel.

"This massage friction treatment has the advantage of being constitutional, local and NATURAL, as it produces an enhanced circulation, enlivens heart and clogged pores, and if persisted in, will make the complexion clear and soft and smooth as velvet. A little cold cream, in case the neck and face are tender, may be applied."

That certainly sounds reasonable, doesn't it? Of course, it implies that the person in search of a good complexion is willing to employ much time and energy. But isn't such a blessing as a good complexion decidedly worth that?

We have young married women's club and young girl's club and mothers' clubs, why not have grandmother's clubs?—Is the suggestion of one of our readers.

Why not, indeed? When a woman reaches the grandmother stage that usually means that her child-bearing and most of her child-rearing period is past and that she will be apt to have more leisure than she has ever had before in the course of her married life.

It also means that as her children with their exuberant and overflowing young lives pass out of the home she will be in much need of greater inward resources and of more intellectual and impersonal interests to keep her happy. Seems to me that in every town there ought to be a Grandmother's Improvement Club, a sort of secret society of grandmothers in which the peculiar trials and joys of grandmotherhood might be talked over and through which opportunities for interests and activities outside the home suitable for women of grandmotherly age might be supplied.

"Are you a grandmother?" might be the password. And "grandmotherhood the happiest time of life" the watchword. How about it?

Don't you think it sounds like an interesting idea?

What to Have for Breakfast.
For most housewives the breakfast is the most trying meal in the day, and anything in the way of a new dish is always most welcome.

Egg-Cream Toast.—Have ready the required amount of toast. In a sauce pan melt a tablespoonful of butter; when bubbling hot add a tablespoonful of flour; cook until smooth, then add a cup of milk, a dash of pepper and salt. Stir in the beaten yolks of two eggs and carefully fold in the well-beaten whites. Pour over the buttered toast and serve.

Prized Beef.—Cut dried beef into bits with the scissors, put into a hot omelet pan with a tablespoonful of butter, stir until well seasoned, then add a cup of white sauce made by using a tablespoonful each of butter and flour and a cup of milk.

Corn and Eggs With Bacon.—Fry eight slices of bacon, take up on paper and keep hot in the oven. Turn out all but one tablespoonful of fat, add a half can of corn, stirring often. When slightly browned, break in four eggs, season with salt, pepper and a tablespoonful of milk, stir and cook. Serve on a platter garnished with strips of toast and the bacon.

Buttermilk Muffins.—Take two cups of milk, one egg, half a teaspoonful of soda, and half a teaspoonful of salt, enough flour to make a batter. Bake in a quick oven.

Baked Macaroni.—Cut choice macaroni in halves and cook in a buttered baking dish. Add two onions and two tomatoes and lay over the fish, interlarding the onion with the tomato, cover the dish with buttered paper and bake until thoroughly done. Pour over a little hot cream and send at once to the table.

Nut Omelet.—Put half a cup of nuts through the meat chopper. Beat three eggs separately, add three tablespoonfuls of water to the beaten yolks, salt and pepper, then fold in the beaten whites. Pour into a hot pan, sprinkle with the nuts, fold and serve.

WORKING SONS OF RICH MEN.

A great deal has been said about the idleness of rich men's sons, and much more of their utter worthlessness as members of society. Much of this talk is thoughtless, and a good deal of it malicious. And as much of it is unjustified.

Contemporary history is full of examples of the sons of rich men who are filling very important places in the world. These men have shown their capacity for accomplishment and their desire to achieve something worth while on their own account. The trouble with much of the talk about

the degenerate tendencies of wealthy men's children is that the occasional man of this class who is a profligate is held up to the public as THE type of his kind.

With all the incentives to idleness imaginable, many of the sons of rich men have gone earnestly to work to fill their place in the world. Few of these serious-minded young men have shied away from the hard and the dirty work necessary for a complete understanding of the business they have anticipated taking in hand. Most of them have by patience and commendable industry mastered the details of their business interests step by step until finally they have acquired such a comprehensive knowledge of it that they are at all times complete masters of the situation.

On the other hand it is very noticeable that the men who are willing to dissipate their time and energies belong to the well-to-do set—either rich or poor. These families furnish the most striking examples of the profligate youth. And it is, as a rule, the young man from them who is content with the mediocre position and the small clerkship.

Sons of this type come from the farms and the small villages, and as long as they can earn or receive a salary that will keep and help them to illumine the white ways of the cities they happen to locate in, they are satisfied. Many of these men leave their native hearths with the best of intentions, but the salary of \$15, \$20 or \$30 looks unusually good to them, and so they desert their regular habitat, where they might have made notable successes, for the places where they will never be anything but third-raters.

There have been men who have gone to the city poor youths, with the slightest of prospects, but they have had unbounded faith in themselves and their enterprise. They have not been the men who have gone in search of a "good time," but for fame and fortune. They have worked hard years and at last secured both. And, sometimes, the long years of toil and close application ending in affluence turns their heads and they become the glittering candles around which many a moth ventures, to be burned and singed and to die.

CHRONOLOGICAL AND REVIEW NUMBER.

Saturday, Dec. 31.

The Chronological and Review number of the GAZETTE will be published Saturday and will contain a vast amount of interesting data on Janesville and vicinity. It will be more profusely illustrated than ever before and will make a valuable bit of history worth preserving. Many orders for extra copies are being received and those desiring to reserve their order should telephone, call or write immediately. Price 3 cents per copy. By mail 5 cents per copy.

Knowledge.

Knowledge is indeed that which best to virtue, truly and essentially raises one man above another. It flashes one half of the human soul. It makes being pleasant to us, fills the mind with entertaining views, and administers to it a perpetual series of gratification. It gives ease to solitude and gracefulness to retirement.—Adanson.

Chinese Floating Hotel.

A floating hotel is to be established in China. The vessel will have three decks, the lower being arranged for dining, billiard, smoking, and card rooms. The main deck will contain a drawing-room and 24 bedrooms, each with a full-sized bath and dressing-room, while the upper deck, or spar deck, has been arranged as a promenade.

DRAPED BLOUSE.

Draped blouses, like many pretty fashions, have been made up in cheap materials and without thought of beauty, consequently much of their charm is lost. However, when properly put together they are very effective. For example, follow this design and drape a white satin blouse with a blue ribbon and use narrow jet trimming as shown in cut. The result is charming and sure to please.

Note the tremendous turban worn with the blouse. It is trimmed velvet with a band of sable and choux of velvet on side for decoration.

SIMPLE PARTY FROCK.

Extremely simple and appropriate is a gown of this type for a young girl. Any of the soft, inexpensive silks will answer admirably. A pretty combination is a pale yellow silk, with white lace and girde of light blue silk.

Deceived by Ourselves.

We are deceived by the mere external look of ourselves in some new position, devising wisely and ascending well; and forget how different a thing it is to be still and dream, and to start up and work.—James Martineau.

Best Cough Medicine for Children.

The season for coughs and colds is now at hand and too much care cannot be used to protect the children. A child is much more likely to contract diphtheria or scarlet fever when he has a cold. The quicker you cure his cold the less the risk. Meritol Cough Remedy is the sole reliance of many mothers, and few of those who have tried it are willing to use any other. Mrs. J. D. Mulliney of Decorah, Ia., says: "I have never used anything other than Meritol Cough Remedy for my children and it has always given good satisfaction." This remedy contains no opium or other narcotic and may be given as confidently to a child as to an adult. For sale by the Reliable Drug Co., Druggists, Members American Drug & Press Association.

Varsity Cardinals Play Here Tonight

Fast Madison Basketball Five, Well Known Here, Feels Confident of Victory Over Lakota Cardinals.

The University of Wisconsin Cardinals, who last week played a close basketball match with the Lakota Cardinals of this city, defeating them by a score of 15 to 13, are to be matched against the local players at the West Side rink again tonight. The Janesville five gave the varsity aggregation such a hard game that in the opinion of many Janesville would have been victorious had the match lasted a few minutes longer. The Madison squad are well known here for their clever work and the fans seem to like their style of playing. They will have exactly the same lineup as before.

It was first intended that Stoughton should play here this evening or tomorrow night, but owing to an unfortunate occurrence, it is said, they will be unable to carry out their agreement, having notified Manager Langdon of the Lakota Cardinals to this effect. They will, however, be here in February. Fortunately, Langdon was able to secure a contest with the varsity quintet and a fast game is expected.

Speed Contest.

Manager James Connors of the West Side roller rink has arranged for a speed contest to be held on the local floor tomorrow evening between Jack Delaney and George Devine, both of Milwaukee. Both men are crack skaters and put up a fine exhibition. The race tomorrow night will be one mile. If the event fulfills all expectations, Mr. Connors is planning to hold a roller skating team race here next week, matching Delaney and Devine against Elchevich and another speedy roller skater in a three-mile contest.

Winning Brothers.

"A Poor Millionaire," the distinctive drama portraying a strong story in a thoroughly convincing manner, appears at the Myers theatre with winning brothers as producers. This play is, without a doubt, one of the best attractions to be seen in this city for several seasons, past, present or future. It is far above the ordinary repertoire show productions. "A Poor Millionaire" has attracted a greater degree of attention from those who view this stage as a vital factor in modern life and recognize its value as an instructive as well as an entertaining institution, than many plays which have attempted to portray exist-

ing conditions. That it has served a great end and attained unprecedented popularity in the process is convincingly demonstrated by its career. "A Poor Millionaire" is in demand everywhere and winning brothers are making this bill one of their features. All five of the brothers comprise this popular company and are renowned for their versatile abilities. Therefore it follows that a play of the above character is sure of correct portrayal and absolute conception of the proper requirements. Many new features will be offered by the winning brothers this season, one of the most prominent being the concert orchestra playing a concert of thirty minutes' duration every evening before the curtain rises. Concert starts at 7:45 in the theatre.

"Daddy and the Baby," announced and advertised as "a laughing show for people from the age of five to seventy-five," will be the holiday attraction at the Myers theatre on Saturday, Dec. 31, matinee and evening. The piece comes here direct from Chicago with a splendid production and an excellent company of farceurs. The play is a hugely diverting farce filled with musical specialties, clever dances and some wonderfully new electrical effects. The play deals with the whimsical experiences of a young couple who attempted to conceal their marriage even after the arrival of the inevitable baby. The farce is said to be the funniest that has been presented on the stage since "Charley's Aunt."

Attention, Odd Fellows.

Dancing to follow program. The same will be held at West Side Odd Fellows' hall. All Odd Fellows and their families and all Rebekahs and their families are invited.

Who Stands Back of the Leather in Your Shoes?

The Leather Trust doesn't have to stand back of the shoes made from the leather it sells. The ordinary shoemaker and the shoe dealer can't stand back of the leather, because they have to take what the Leather Trust gives them.

Endicott, Johnson & Co. is the only shoe concern in this country independent of all Trusts. They tan all the leather they use—and they tan it so that it wears as well as leather were twenty years ago.

Endicott, Johnson & Co. have cut out all middlemen's profits, as they did the Leather Trust's profit. They sell direct to your home dealer.

It's easy to see why people save money on every pair of Endicott-Johnson shoes—and why one pair of these shoes will outwear two pairs of any shoe made from the Leather Trust's leather—not to mention the saving of 50c. to \$1.00 in the price.

For street and business wear ask for the ENDWELL shoe—\$3.00, \$3.50 and \$4.00.

ENDWELL shoes are as stylish shoes as any man wants to wear—correct in design and handsome in appearance. You can make your choice from all the fashionable lasts and shapes of toe—high cut and low cut—lace or button.

Look for the name stamped on every shoe—

ENDWELL Brown Bros.

Shoe buyers who live outside the city where this paper is published can learn the names of their home dealers who carry ENDWELL Shoes by writing to Endicott, Johnson & Co., Endicott, N. Y.

ROBIN HOOD AMMUNITION
NOT MADE BY A TRUST

"It's all in the Powder"

Results prove the superiority of Robin Hood Ammunition. If you will try it you will find that it kills further—gets there quicker—hits harder—and kicks less than any other ammunition.

"IT'S ALL IN THE POWDER"

HOW OURS WORK

1. Its explosive force increases from breech to muzzle. The powder ignites and the shot is driven faster and faster along the barrel, reaching its greatest speed as it leaves the muzzle.
2. Robin Hood Ammunition has no lost motion; it does not kick, but applies the driving force to the shot, and not to your shoulder.
3. Robin Hood Ammunition with its any climatic conditions, and is not affected by age.
4. Does not crush or disfigure the shot—gives a very even pattern—better killing circle. Will not lead, corrode, or otherwise injure the gun.

Our four brands of powder are:

- Robin Hood Smokeless, loaded in Robin Hood and Comet Shells.
- Pearless Smokeless, loaded in Clipper and Capital Shells.
- Rapidite Dense, Smokeless, loaded in Crescent and Autocrat Shells.
- Eclipse, Near Smokeless, loaded in Eclipse Shells.

We also make a line of Metallic Cartridges, .22, .32, and .38 calibre, that are without equal for target and gallery practice. They are loaded with smokeless powder and are adapted to all makes of firearms using these sizes. Buy Robin Hood Ammunition from any of the dealers whose names appear below. If that is inconvenient, write us and we will see that you are supplied. Send for our catalog, anyway.

Remember, we are the only ammunition manufacturers in America that manufacture Smokeless Powder and load the products of our own mills.
